Article: 411611 - Shirt s/s 1/2 zip ZEROWEIGHT CERAMICOOOL PRO

Item description: Turn heads while you turn pedals in this classy and stylish, but oh-so high performance Zeroweight CERAMICOOOL PRO cycling shirt. Designed to keep you feeling absolutely cool, dry and streamlined on summer cycling missions, this ultra lightweight women's cycling top features next-gen CERAMICOOOL fabric technology, with ceramic micro particles that actively reduce skin temperature by up to 1°C. Meanwhile, aerodynamic sleeve hems reduce wind drag, helping you to shave seconds off your PB. Cut with sporty yet feminine styling and coming in three attractive colourways, the top's half-zip design provides added ventilation to the mix, while a zippered pocket gives you a safe place to stash the essentials. When you're out on your bike and burning up the trail in the midday sun, make every degree count with the Zeroweight CERAMICOOOL Pro from ODLO.
